COVENANT ADP ESCORT UPGRADE

A ship for protectors and shepherds, ADP Escort Vessels are rare and valuable antiquities of the Age of Conversion, a period of war and redemption when Covenant merchants needed protection against opportunistic pirates and the greed of rapacious Ministers eager to expand their influence and wealth. The 12 Escorts in this box can be used by Covenant commanders to augment their existing fleets, using the ADP as a single or dual escort, the latter allowing the two vessels to use their own cloaking technology to mask the signature of any larger vessel they are escorting. Also included in the box are Formation Bases and Ship Overlay Sheets for all models.

CONTAINS NEW FORMATIONS
